

PROTECT YOUR PROPERTY AND WHĀNAU AGAINST FIRE THIS SUMMER

THE BEST TIME TO GET SCRUB FIRE READY, IS NOW.

Fire is a serious threat to the safety of your loved ones and the security of your property. While major fires such as the Lake Ohau blaze this year and the Pigeon Valley fire of February to March last year are reported in the news Fire and Emergency New Zealand attend more than 4,000 vegetation fires around the country each year. As our summers get warmer and water gets scarcer, the threat of fire becomes greater each year. Don't get caught off-guard this summer and be prepared to protect what's important, should a fire come your way.

Davey Firefighter WORLD FAMOUS PERFORMANCE

The one and only Davey Firefighter, powered by the class leading Honda engine, Davey Firefighter is number 1 in New Zealand, and sold worldwide. Provides high head performance at 3600rpm whilst still being able to operate across the full pump curve without overloading the engine.
